

St. John's Gosport C of E Primary School

Administration of Medicines Policy and Procedure

Publication Date:	April 2023	Headteacher:	Mrs Carolyn Wilkinson
		Chair of Governors:	Mrs Jean Watson
Reviewed:	January 2025	School reviewed	Mrs Carolyn Wilkinson

This policy is based on the Hampshire County Council template (Children's Services Health & Safety)

School Vision:

St John's Gosport C of E Primary School endeavours to provide a happy, safe, caring community rooted in Christian values; where everyone is valued and grows to their full potential.

John 10:10 – I came so that they may have life – life in all its fullness

Mission Statement:

At St John's Gosport C of E Primary School we aim to achieve our vision by providing a broad balanced curriculum and learning experiences that develop our children in body, mind and spirit; setting high standards for all, confident that we can achieve success. Thus ensuring that when our children leave us they are independent learners, who are well equipped to be responsible citizens of the future and reach their potential.

Safeguarding at St John's Gosport C of E Primary School is carried out in line with the statutory guidance in 'Keeping Children Safe in Education' published by the Department for Education.

Introduction

St John's Gosport C of E Primary School will undertake to ensure compliance with the relevant legislation and guidance in *Managing Medicines in Schools and Early Years Settings* published by the Department of Health with regard to procedures for supporting children with medical requirements, including managing medicines. Responsibility for all administration of medicines at St John's Gosport C of E Primary School is held by Mrs Carolyn Wilkinson, who is the responsible manager.

It is our policy to ensure that all medical information will be treated confidentially by the responsible manager and staff. All administration of medicines is arranged and managed in accordance with the *Managing Medicines in Schools and Early Years Settings* document. All staff have a duty of care to follow and co-operate with the requirements of this policy.

Aims & Objectives

Our administration of medicine requirements will be achieved by:

- Establishing principles for safe practice in the management and administration of:
 - prescribed medicines
 - non-prescribed medicines
 - maintenance drugs
 - emergency medicine
- Providing clear guidance to all staff on the administration of medicines
- Ensuring that there are sufficient numbers of appropriately trained staff to manage and administer medicines
- Ensuring that there are suitable and sufficient facilities and equipment available to aid the safe management and administration of medicines
- Ensuring the above provisions are clear and shared with all who may require them
- Ensuring the policy is reviewed periodically or following any significant change which may affect the management or administration of medicines

Administration

The administration of medicines is the overall responsibility of the parents. The headteacher Mrs Carolyn Wilkinson is responsible for ensuring children are supported with their medical needs whilst on site, and this may include managing medicines where appropriate and agreed with parents.

Routine Administration

Prescribed medicines

- It is our policy to manage prescribed medicines (eg. antibiotics, inhalers) where appropriate following consultation and agreement with, and written consent from the parents

Non-prescribed medicines

- It is our general policy not to take responsibility for the administration of non-prescribed medicines, (eg. Calpol or cough mixtures provided by the parents) as this responsibility rests with the parents
- On occasions when children require paracetamol it is our policy to administer providing that written consent from the parents has been received in advance and administration is in accordance with guidance provided in the *Managing Medicines in Schools and Early Years Settings* document
- Children under 16 years old are never to be administered aspirin or medicines containing Ibuprofen unless prescribed by a doctor

- Responsibility for decision-making about the administration of all non-prescribed medicines will always be at the discretion of the responsible manager who may decide to administer under certain miscellaneous or exceptional circumstances

Maintenance drugs

- It is our policy to manage the administration of maintenance drugs (eg. Insulin) as appropriate following consultation and agreement with, and written consent from the parents. On such occasions, a health care plan will be written for the child concerned

Non-Routine Administration

Emergency medicine

- It is our policy (where appropriate) to manage the administration of emergency medicines such as (for example):
 - Injections of adrenaline for acute allergic reactions
 - Rectal diazepam for major fits
 - Injections of Glucagon for diabetic hypoglycaemia
- In all cases, professional training and guidance from a competent source will be received before commitment to such administration is accepted

Procedure for Administration

When deciding upon the administration of medicine needs for children we will discuss this with the parents concerned and make reasonable decisions about the level of care required.

Any child required to have medicines will have an ‘administration of medicines/treatment’ consent form completed by the parent and kept on file.

Individual health care plans will be completed for children where required and reviewed periodically in discussion with the parents to ensure their continuous suitability.

For any child receiving medicines, a ‘record of prescribed medicines’ sheet will be completed each time the medicine is administered and this will be kept on file.

If a child refuses to take medication the parents will be informed the earliest available opportunity.

Contacting Emergency Services

When a medical condition causes the child to become ill and/or requires emergency administration of medicines, then an ambulance will be summoned at the earliest opportunity.

Medical Accommodation	
------------------------------	--

All medicines are stored in the school office or where required, in the fridge in the kitchen by the Headteacher’s Office. There is also a Medical Room which can be used for medicine administration/treatment purposes.

Training	
-----------------	--

Where staff are required to carry out non-routine or more specialised administration of medicines or emergency treatment to children, appropriate professional training and guidance from a competent source will be sought before commitment to such administration is accepted.

A ‘staff training record’ sheet will be completed to document the level of training undertaken.

Such training will form part of the overall training plan and refresher training will be scheduled at appropriate intervals.

Storage	
----------------	--

The storage of medicines is the overall responsibility of :

- Headteacher: Mrs Carolyn Wilkinson (in the absence of the headteacher, the deputy headteacher Mrs Gemma Havey)
- Mrs Jennifer Taylor is in charge of first aid and will ensure that arrangements are in place to store medicines safely.
- Mrs Donna Muston is in charge of administration and storage of medicines.

The storage of medicines will be undertaken in accordance with the *Managing Medicines in Schools and Early Years Setting* document and product instructions. Medicines should be stored in the original container in which they were dispensed.

It is the responsibility of all staff to ensure that the received medicine container is clearly labelled with the name of the child, the name and dose of the medicine and the frequency of administration.

It is the responsibility of the parents to provide medicine that is in date. This should be agreed with the parents at the time of acceptance of on-site administration responsibilities.

Disposal	
-----------------	--

It is not the responsibility St John's C of E Primary School to dispose of medicines. It is the responsibility of the parents to ensure that all medicines no longer required including those which have date-expired are returned to a pharmacy for safe disposal.

'Sharps boxes' will always be used for the disposal of needles. Collection and disposal of the boxes will be locally arranged as appropriate.
